Coloring Book and Song

Slow, Slow, Slow your flow;
water when it's cool.
We need conservation,
not evaporation,
so follow this simple rule.

Whooooo should save
2 gallons of water daily?
YOUUUUU!

Slow, Slow, Slow your flow,
gently down the drain.
Save each drop;
it's all we've got.
Join our Save 2 campaign!

Slow, Slow, Slow your flow,
catch our precious rain.
It's barrels of fun;
the cost hardly none.
We've got everything to gain.

Slow, Slow, Slow your flow,
while you brush your teeth.
Don't let water gush;
turn it off while you brush.
Let your water use be brief.

Slow, Slow, Slow your flow;
shorter showers work -
five minutes, no more,
maybe even four.
That's plenty to wash off dirt!

Slow, Slow, Slow your flow;
put a nozzle on your hose.
Easy off, easy on,
water stays on the lawn.
You control where it goes.
