

Look Around - It's Dry!

Listen to this song (and others) at abcwua.org. Click on the Education tab.

Chorus:

Look up - Bright blue sky!

Look down - Dirt and rocks!

Look around - Dry!

It's up to you to save 2 - gallons of water each day!

Save water when you wash;
follow my easy hints.

Wet your hands, turn it off,
soap them up, then rinse.

Save water when you brush;
it's so easy to do.

Don't let water gush;
turn it off when you brush

You can sing in the shower
if it's a short show.

Five minutes is enough;
take your bows, and go.

You can stay in the tub
'till the water gets cold.

But don't fill it up;
water's better than gold.

Fill up the washer
when you wash your clothes.
Only run it full;
that's what everyone knows.

That rule applies
to your dishwasher too.
Turn it on when it's full;
that's the thing to do.

You can xeriscape,
and you know you oughta.
Desert plants like it hot;
they don't need much water.

Don't water your yard
in the heat of the day.
It evaporates,
and the water won't stay.
