## Make your own rain stick!

### Materials needed:

- Tape

### Instructions:

1. Take one small piece of aluminum foil and tape it to one end of the cardboard tube.
2. Take the two larger pieces of aluminum foil and roll them together long ways into a long snake shape. Fold it in half then twist it around itself. Make sure to leave space in between each twist so the beans and rice can fall through.

3. Put twisted foil snake in the cardboard tube, with the covered end facing down.
4. Fill the tube with as many beans and rice as you like. Test out the sound! Having more or less will change the noise.
5. Take the other small piece of aluminum foil and tape it over the other end to close the tube.
6. Decorate it! Use your imagination, the rest of your supplies and anything else you have at home to make your rain stick shine!

We don't get a lot of rain in Albuquerque...  
Play your creation and sing to bring the rain!!!

**Rain Rain Come Today  
Rain Rain Don't Go Away  
We Are Desert Kids and We Want to Play!**

**REFUSE. REDUCE. REUSE. RECYCLE.**

Remember to reuse your baggies from your kit!
