

Slow Your Flow Song

Sing this to the
tune of "Row, Row,
Row Your
Boat."

Slow, slow, slow your flow.
Water when it's cool.
We need conservation,
not evaporation.
So follow this simple rule.

Slow, slow, slow your flow.
While you brush your teeth.
Don't let water gush;
Turn it off while you brush.
Let your water use be brief.

Slow, slow, slow your flow.
Shorter showers work.
Five minutes, no more,
maybe even four.
Don't be a (sorry, it rhymes) jerk.

Slow, slow, slow your flow.
Put a nozzle on your hose.
Easy off, easy on,
water stays on the lawn.
You control where it goes.

Slow, slow, slow your flow.
Catch our precious rain.
It's barrels of fun;
the cost hardly none.
We've got everything to gain!

Slow, slow, slow your flow,
Gently down the drain.
Save each drop;
It's all we've got.
