Some wasps chew up strips of bark and spit it out to make paper that they form into nests.

- 5 Yellow jackets and paper wasps are social wasps. They can call nest mates using a scent.
- 5 Paper wasps prey on live insects.
- 5 Each wasp can sting many times when threatened. Yellow jackets love sweet drinks. Avoid stings by keeping your drink closed.

- 5 Bees usually sting only once and the stinger stays in who or what was stung. Bees bodies are thick and hairy to carry the pollen from flowers.

Some wasps chew up strips of bark and spit it out to make paper that they form into nests.

- 5 Las Avispas chaqueta amarilla y avispas papeleras son avispas sociales. Pueden llamar a sus parejas por el uso del olor.
- 5 Otros insectos vivos son presa de las avispas papeleras.
- 5 Cada avispa puede picar muchas veces cuando se siente amenazada. A las avispas chaqueta amarilla les encantan las bebidas dulces. Mantenga las bebidas cerradas para evitar la picadura de una avispa.

- 5 Las abejas usualmente pican no más una vez y el aguijón se queda en la persona que pican. Los cuerpos de las abejas son gruesos y peludos para llevar polen de las flores.
